# Customize courses, your way, in minutes

Design

Catalyst Design is LRN's advanced course customization tool that gives you full control over our award-winning training content with both power and simplicity.

Build courses that reflect your unique brand, tone, and values while delivering engaging learning experiences – no heavy lift or designer necessary.

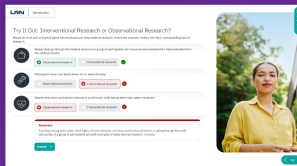

Design
Access any licensed course and make it yours

Customize
Edit text, images, quizzes, and scenarios to fit your organization

Deliver
Preview changes instantly so you can publish updates quickly

Edit without limits
- Edit text, images, quizzes, and scenarios to reflect your organization and needs
- Create unique learner experiences tailored to your organization

Brand every experience
- Apply your organization's look, tone, and feel across every course
- Ensure a cohesive look and feel for all training content
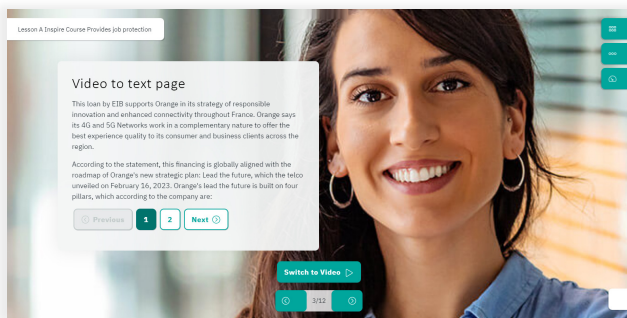

Preview and publish fast
- Admins can make updates quickly with intuitive, PowerPoint-like tools
- See changes in real time before publishing, reducing administrative workload
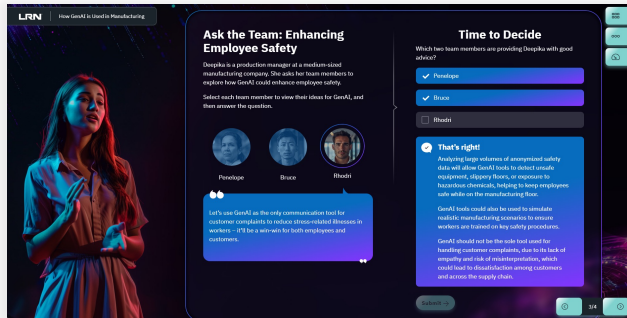

Increase engagement
- Add gamification and interactive elements
- Incorporate adaptive elements for deeper personalization

Customization that drives results

Build learning experiences and compliance training that is more relevant and engaging, while ensuring compliance standards are met.

82% of clients report that **"Course Customization"** is the most important LRN product feature

62% of clients say that **Catalyst Design** is the tool that saves them the most time

> *LRN's content customizability has enabled us to grow our program from one where employees completed training grudgingly to one where they report being actively engaged.*
>
> **Red Hat**

> *I love the LRN courses. They are well built and easy to customize. I like that I have access to customize the courses self-service but have support if I have questions.*
