

# Streamlined end-to-end disclosure management

**Catalyst Disclosures** automates and simplifies the entire disclosure process—from submission to resolution. It eliminates manual tasks, reduces administrative burden, and creates a single source of truth for all disclosures and attestations.

With customizable templates and streamlined workflows, it ensures faster reviews, consistent processes, and greater transparency across your organization.

## Automate

Eliminate manual processes with rule-based workflows.

## Customize

Tailor templates and questionnaires for any compliance need.

## Monitor

Gain real-time visibility into submissions and risk areas.

### Streamlined workflows

- End-to-end process from submission to resolution
- Pre-built questionnaire templates for common disclosure types

### Unified data and reporting

- Centralized audit trails for compliance
- Consistent tracking across all disclosure types

### Customizable templates

- Conflicts of interest, gifts & entertainment, policy acknowledgements
- Available in 70+ languages with multiple response types

### Real-time insights

- Identify hotspots and gaps in compliance
- Advanced analytics when paired with Catalyst Reveal

# Simplify disclosure management

Catalyst Disclosures automates and streamlines the entire disclosure process so compliance teams can reduce manual work, improve transparency, and manage risk more effectively.

## Key features

- Automates disclosure submissions and routing for faster resolution
- Provides a centralized dashboard for real-time visibility into all disclosures
- Creates a secure, auditable record for compliance and reporting
- Sends automated reminders and notifications to keep reviews on track
- Offers pre-built templates for quick deployment and easy customization
- Integrates seamlessly with existing compliance workflows
- Enables standalone or course-integrated disclosure delivery

## Customization that drives results

Build learning experiences and compliance training that is more relevant and engaging, while ensuring compliance standards are met.

## Building trust with streamlined disclosure processes
